

SNOWFLAKE SONNET

*Winter winds whirl and fly snowflakes falling from the sky.
Snowflakes in their northern range have never heard of climate
change.*

*They laugh when people try to tell when and where the snow-
flakes fell.*

*Stupid snowflakes wonder why they never fall upon Dubai.
The sand that's there is very hot, but snowflakes, as you know,
are not.*

*The largest Snowe-flake lives in Maine, Olympia is her given
name.*

*Few snowflake buttons can be found, so button lovers hunt
them down.*

Tom Darby Shakespeare

Editor's Note: Olympia Jean Snowe is the senior US Senator from Maine.
