New Studio Button Artist: G. Paul

Marin Curry of the Washington State Button Society introduces us to the work of G. Paul. She is collaborating with the artist to offer these amazing reverse-carved acrylic buttons.

G. Paul’s first love is underwater sea life, so you will see an emphasis on that subject matter. He carves unusual animal life such as a seahorse, stingray, turtle, octopus, jellyfish, and more. His work is different from most reverse carve artists, showing depth and detail without painting the button.

Check out his fabulous colored acrylic fishbowl! All buttons are NBS large unless otherwise specified.

The artist is willing to consider special requests, so if you have an idea or need for a button, we are looking for feedback, so if you have any comments, Marin would appreciate hearing them.

Please contact Marin Curry with any questions, comments or orders for G. Paul’s buttons at marincurry@comcast.net or by USPS mail to Marin Curry, 5615 20th Avenue NE, Seattle WA 98105-2434.

The Western Regional Button Association is pleased to share our educational articles with the button collecting community. This article appeared in the January 2008 WRBA newsletter, *Territorial News*. Enjoy! And consider joining WRBA! Go to www.WRBA.us
